SlumberCare Bedding (AUST.) PTY LTD

Manufacturer of mattresses, bases and bed heads; importer of mattresses, adjustable bases, pillows and manchester. Proudly producing and supplying brands Sleep Australasia and Therapedic wholesale to retailers.

Sleeping the Nation

At Slumbercare Bedding it is our mission to create and supply products and services to our high standards for quality, reliability and value. We strive for each product to be best-in-class and to provide our customers with friendly, professional service.

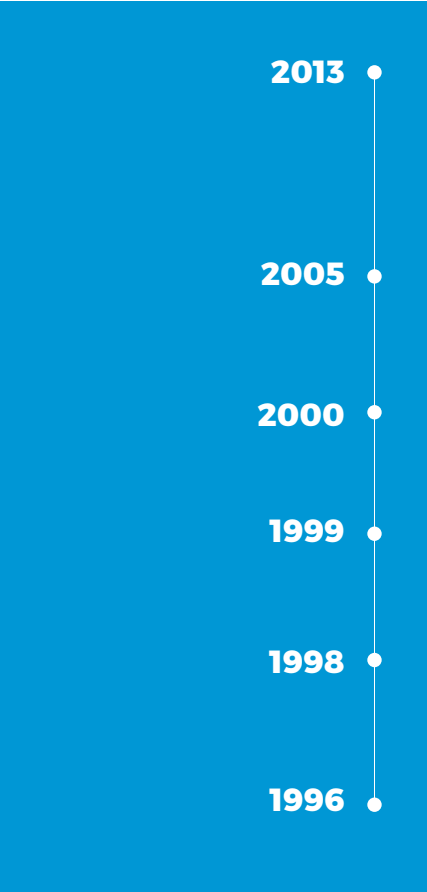

Slumbercare Bedding - sleeping the nation.

Slumbercare Bedding is an Australian, family owned and operated business with the owners boasting over 80 years combined industry experience.

We proudly produce quality Australian made products and supplement this range with quality imported bedding products. Slumbercare Bedding has supplied quality mattresses and bedding products at sensible prices to South East Australian retailers since 1996. Our products are made to quality standards, are supplied for domestic and commercial markets in South East Australia as well as export markets.

COMPANY HISTORY

EXPANSION TO NEW PREMISES

Further growth and the need for updated facilities compelled the move to larger premises and in August 2013, Slumbercare Bedding moved to its current location in Braeside, Victoria.

MANUFACTURING IN CHINA

Work on an import program since 2000 came to fruition in 2005 when Slumbercare Bedding entered into business partnership to manufacture in Guangzhou, China.

EXPANSION

Growth drove the need to move to larger premises and in April 2000, Slumbercare Bedding moved to Oakleigh South, Victoria.

NEW BRAND - SLEEP AUSTRALASIA

The brainchild of Slumbercare Bedding, Sleep Australasia was the first of our brands and the most successful and long standing.

NEW BRAND - THERAPEDIC

Proudly signing the Therapedic license for Victoria and Tasmania in 1998 set Slumbercare Bedding on the path of a long term relationship with Therapedic; extended in 2001 and 2011 to ACT, NSW, and South Australia.

SLUMBERCARE BEDDING BEGINS

In a modest factory in Cheltenham, Victoria and with a small amount of plant and equipment, Slumbercare Bedding commenced manufacturing operations and selling to retailers in South East Australia.

SLUMBERCARE BEDDING BRANDS

Since 1998 Slumbercare Bedding have been manufacturing world renowned Therapedic licensed products. These are now sold throughout Victoria, Tasmania, South Australia, ACT and NSW.

good night... great mornings...™

Therapedic USA approached us in 1997 to join their team of International manufacturers.

The benefits were obvious and it's been a rewarding partnership ever since. Originally our licensee agreement was for product sold into Victoria and Tasmania but this has since expanded into N.S.W, S.A and recently taken over W.A. Therapedic is focused on innovation, giving consumers a product that's unique, comfortable and affordable.

THERAPEDIC
INTERNATIONAL

Our goal is to provide bedroom products of the highest quality to ensure people have the best chance of good healthy sleep. Our products are made with care and precision with materials sourced from all over the globe.

DESIGN

Research and development plays a vital role in how we design our products. Along with decades of experience we know specific materials complement each other to produce a durable and comfortable product.

MANUFACTURING

Our commitment to high quality manufacturing is unwavering so we invest in advanced technology and training programs to ensure our products are continually at the forefront.

SUPPLIERS

A reliable supply chain is essential to successful manufacturing. We have strong, long-term partnerships with our suppliers, some dating back to when we first opened our doors which is why our products are affordable and superior quality.

SUPPORT TEAM

Service is a very important aspect to our business. Our Administrative and Service Team pride themselves on providing personal and professional assistance.

We invest heavily into cutting edge machinery to ensure we provide the best and most innovative products possible. From traditional spring units to tufting machines- we fuse hand crafted techniques with technology to produce unique and exclusive bedding products.

We order materials from all over the globe. If our Australian suppliers can't provide high standard materials, we source from countries such as U.S.A., Spain and the Asian region. We ensure our customers receive the best quality products possible.

Sleep  australasia™

With our New Zealand and Queensland partners, we now have the capabilities of supplying and servicing the Australasian area. Our main focus is to make quality, durable and affordable products to suit all needs including commercial customers.

www.sleepaustralasia.com.au

Australia's 24/7 society has caused a sleep deprivation epidemic.

Sleep is a fundamental health requirement and lack of healthy sleep has been strongly linked to a host of medical problems such as heart disease, diabetes, depression and every day functions like mood swings, concentration, memory, learning and reaction times.

Sleep is a time for our immune system to build its forces so without it your body struggles to fend off invaders. As our lifestyles become busier and busier, sleep is more important than ever.

Our contribution to achieving healthy sleep is providing reliable sleep surfaces. We design our beds to be supportive, comfortable and practical. We recognise everyone has a unique physique so we've designed a vast range of mattresses and bases to suit every sleepers needs.

Our adjustable beds have been engineered to improve people's lives- whether it's for medical purposes or improved comfort, we have options to suit everyone's needs.

Our medical beds are engineered to provide independence and extra assistance with sleeping comfortably. The benefits are priceless especially the Hi Lo function which enables the sleeper to adjust the height of the entire bed making it easier to get in and out of bed. They're a hospital bed without the hospital look!

Adjustable Beds

We continually look for ways to improve our manufacturing systems ie: training programs and advanced machinery.

We're excited to see what the future brings and we will continue raising the bar in manufacturing bedroom products.
